# Design

- Features a striking new foldable form factor
- Made from premium Grade 5 titanium frame with a mirror-polished finish and contrasting micro blasted hinge cover
- Custom-engineered hinge is made from over a hundred precision components, so opening and closing iPhone Duo feels smooth
- Thinnest iPhone ever when open, and it's comfortable to hold and use with one hand when closed
- Has Ceramic Shield 2 on the front and Ceramic Shield on the back, scratch-resistant coating on the inner display, and IP68 dust and water resistance<sup>1</sup>
- Touch ID integrated into the side button for an easy, secure, and consistent way to authenticate when closed or open
- Choose from two elegant finishes: Star White and Night Sky

<sup>1</sup> iPhone Duo is splash, water, and dust resistant and was tested under controlled laboratory conditions with a rating of IP68 under IEC standard 60529 (maximum depth of 6 meters up to 30 minutes). Splash, water, and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.

# Dual display system

- 7.6-inch Super Retina XDR display is 50% larger than iPhone 18 Pro Max, and ideal for content, gaming, and multitasking
- 5.4-inch outer display delivers 90% of the screen area of iPhone 18 Pro
- Both displays have the same aspect ratio so content can scale proportionally for smooth visual continuity
- FaceTime camera is hidden under the display, enabling an uninterrupted viewing experience
- Nano-texture finish on the inner display reduces glare and reflections and creates a perceptually flat matte surface for an amazing viewing experience
- Both displays support ProMotion up to 120Hz, Always-On, and 3000 nits peak brightness

# Software

- Features a redesigned iOS with essential controls moved to the side to maximise vertical space for content, and apps automatically expand and transition from the outer display to the inner display
- Use iPhone Duo open, closed, or partially folded with unparalleled flexibility in any pose or orientation
- Split View multitasking on iPhone for the first time unlocks enhanced productivity—split the screen between two apps with simple swipe gestures you already know
- StandBy activates without charging
- Siri AI takes full advantage of the large inner display, like swiping down from the Dynamic Island to start a conversation without leaving what you’re working on—Siri AI is rolling out in English, and usage limits may apply<sup>2</sup>

<sup>2</sup> Apple Intelligence is available with Siri and device language set to Chinese (Simplified), Chinese (Traditional), Danish, Dutch, English, French, German, Italian, Japanese, Korean, Norwegian, Portuguese, Spanish, Swedish, Turkish, or Vietnamese. Some features may not be available in all regions or languages. Some devices may not be available in all regions. Siri AI is available in beta in iOS 27 and requires an Apple Intelligence-enabled device set to a supported language. Available in English to start. Siri AI will not be initially available in the EU on iOS. Certain Siri AI and Apple Intelligence features have usage limits. Expanded access to such features will be available for a fee in the future. Use of these features is subject to the Apple Intelligence Terms and Conditions. # A20 Pro

- With the same chip as iPhone 18 Pro, A20 Pro is the most powerful iPhone chip ever with 6-core CPU, 7-core GPU, and Dual 16-core Neural Engine
- Vapour chamber paired with desktop-class chip layout effectively manages heat dissipation and delivers up to 35% higher sustained performance than iPhone 17 Pro
- Has 50% more memory bandwidth and is built on latest 2-nanometer technology, so everything feels faster and more responsive

# Camera system

- New 48MP Fusion Main camera is custom-designed for iPhone Duo
- Enjoy optical-quality 2x Telephoto, zero-shutter lag in 48MP, and 4K120 video for stunning slow motion
- 48MP Ultra Wide camera is the same as iPhone 18 Pro for macro and wide-angle shots
- Dual Capture records front and rear simultaneously
- Under-display FaceTime camera on the inner display is a first on iPhone, for an uninterrupted viewing surface that's remarkably smooth and flat, and it supports Center Stage
- Form factor enables new camera experiences

## Camera system (cont.)

- Smart Take uses AI to detect poses and snap the photo when everyone is posed
- With Duo FaceTime, someone with you can join a FaceTime call from the outer display
- Reframe, expand, and clean up your images with Apple Intelligence-driven photo editing tools—usage limits may apply<sup>2</sup>
- Supports Photographic Styles 3, Cinematic mode effects from regular video at 60 fps, Audio Mix for music, 4K Timelapse, and smart focus tracking

<sup>2</sup> Apple Intelligence is available with Siri and device language set to Chinese (Simplified), Chinese (Traditional), Danish, Dutch, English, French, German, Italian, Japanese, Korean, Norwegian, Portuguese, Spanish, Swedish, Turkish, or Vietnamese. iPhone Duo features a 48MP Fusion Ultra Wide camera, so users can capture a wide field of view and unique perspectives in stunning detail.

Thanks to zero shutter lag, the 48MP Fusion Main camera can capture the motion of a jump while maintaining sharpness throughout the image.

The 48MP Fusion Main camera is like having two cameras in one, with an optical-quality 2x Telephoto that gets users closer to their subject.

iPhone Duo supports the updated Photographic Styles with texture and grain controls to let users further dial in their desired appearance and enable more unique looks in photos.

The 48MP Fusion Main camera excels in low light to capture sharp details in different lighting conditions.

The 24MP default on the rear cameras provides the perfect balance of image quality and rich detail at a file size ideal for saving and sharing.

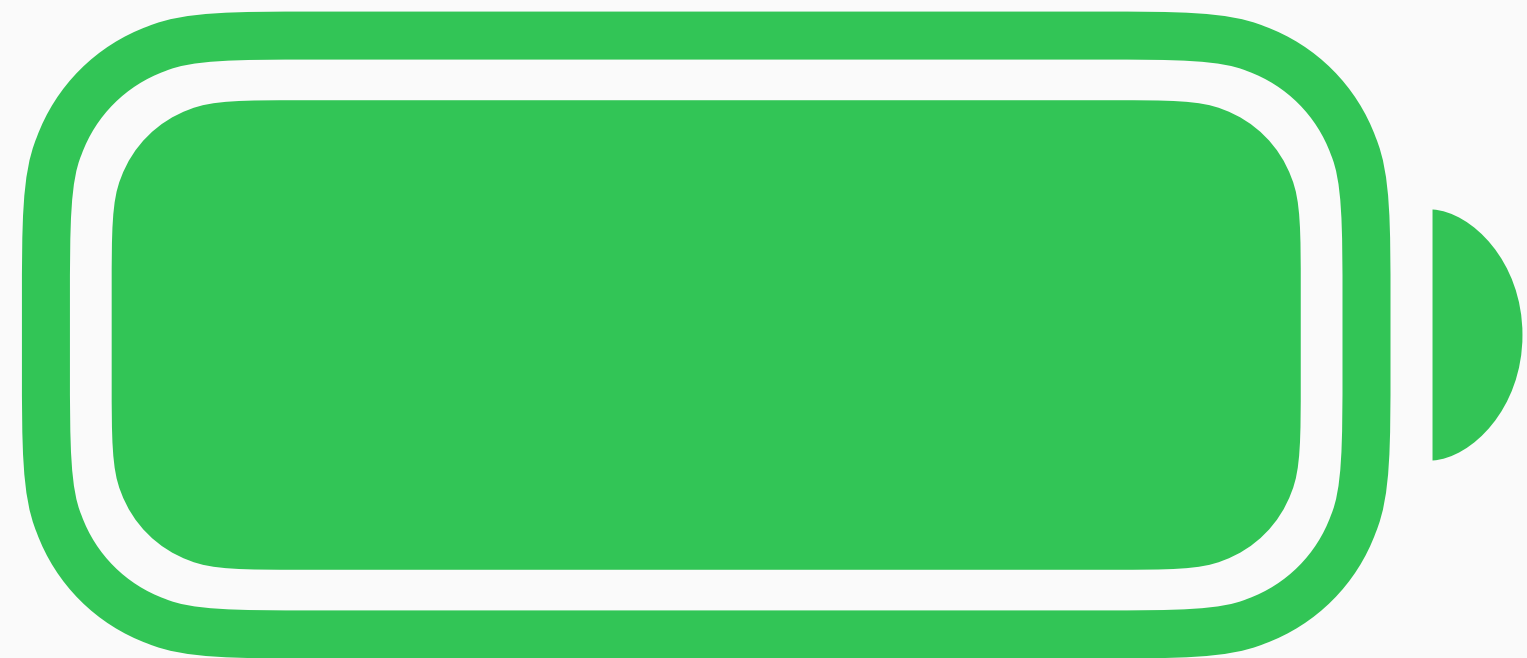

When friends join a shot, the Center Stage front camera automatically expands the field of view and can rotate the frame to include everyone in the photo or video.

## Battery and charging

- First iPhone with dual batteries that operate as one, delivering up to 44 hours of video playback when using the outer display and up to 31 hours of video playback when using the inner display<sup>3</sup>
- eSIM-only design means more space for battery capacity
- Enjoy fast wired charging with up to 50% in around 20 minutes<sup>4</sup>

<sup>3</sup> Battery life varies by use. <sup>4</sup> For performance testing details, see [apple.com/iphone](https://apple.com/iphone).

# Quick Demos

## Experience the foldable design

- Hand iPhone Duo to customers closed so they can feel the compact size and polished finish.
- Mention that it's comfortable to hold and use with one hand.
- Point out the 5.4-inch outer display. Let them know that it delivers the full iPhone experience like apps, notifications, and messages, and it's perfect for quick tasks.
- Invite them to open and close iPhone Duo and feel how smooth it is. Point out that it's the thinnest iPhone ever when open, and the 7.6-inch inner display is the largest ever on iPhone.
- Show the Star White and Night Sky finishes. Let them know the front is protected by Ceramic Shield 2 and Ceramic Shield on the back.

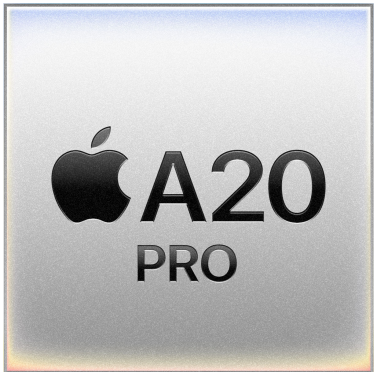

## Try the unique camera experiences

- Open Camera with iPhone Duo fully open. Partially fold it, standing upright, and set it on a surface. Mention how it stands on its own—no tripod or stand needed.
- Tap the icon in the top-left corner to switch to Duo Preview. Show how the live preview mirrors on the outer display, so the person being photographed can see themselves and adjust their pose in real time.
- Tap the icon in the top left corner to switch to Kid Cue. Show the animations on the outer display and how they help hold a child's attention so they look at the camera and smile.
- Unfold iPhone Duo fully, then flip it so the rear cameras face the customer. Point out the preview on the outer display, which makes it easy to take high-resolution selfies from the 48MP rear camera without guessing at framing.
- Tap the six dots icon, and select Smart Take. Tap the yellow button and show how Smart Take uses AI to detect poses and snap the photo when everyone is posed. Mention that no one has to press the shutter or race to get in the frame.

# Quick Demos

## Explore multitasking

- Open iPhone Duo in landscape, then open Safari.
- Use the familiar swipe gesture to split the screen with Messages side by side. Mention that this is the first time iPhone supports Split View multitasking.
- Drag a photo or link from Safari into the Messages conversation. Point out how natural it feels to move content between apps on the larger display.
- Swipe down from the Dynamic Island to start a conversation without leaving what you’re working on. Share that Siri AI takes full advantage of the large inner display.
- Fold iPhone Duo and set it down so it rests on both edges with the hinge at the top.
- Show how StandBy activates automatically with no charger required. Mention it works as a bedside clock, photo frame, or widget display just by folding it.
- Set iPhone Duo on a surface with the display facing you and the lower half flat on the table.
- Open the Apple TV app and show how content stays on the top while playback controls are on the bottom. Say that it’s great for watching on a flight or at a desk without holding the phone.

## Highlight the performance of A20 Pro

- Mention that iPhone Duo is powered by A20 Pro, the same chip as iPhone 18 Pro, and delivers sustained performance higher than iPhone 17 Pro.
- Say that iPhone Duo is the first iPhone with dual batteries that operate as one delivering up to 44 hours of battery life.
- Mention that a quick 5 minute of charge gives about 5 hours of video playback when closed.

**Quiz**

Line Up & Compare

**Question 1:**

What are the screen sizes of the inner and outer displays on iPhone Duo?

- A) 6.1-inch inner display and 5.0-inch outer display
- B) 6.7-inch inner display and 5.8-inch outer display
- C) **7.6-inch inner display and 5.4-inch outer display**
- D) 8.0-inch inner display and 6.1-inch outer display

**Correct Answer:** C

**Learner Feedback:**

**Correct:** That's right! iPhone Duo features a 7.6-inch inner display when opened and a 5.4-inch outer display when closed.

**Incorrect:** iPhone Duo features a **7.6-inch inner display** and a **5.4-inch outer display**.

**Question 2:**

How is biometric authentication handled on iPhone Duo whether it is opened or closed?

- A) Under-display ultrasonic fingerprint scanner
- B) Face ID sensors on both displays
- C) **Touch ID integrated into the side button**
- D) Optical iris scanner

**Correct Answer:** C

**Learner Feedback:**

**Correct:** Correct! iPhone Duo integrates **Touch ID into the side button**, providing an easy, secure, and consistent way to authenticate whether open or closed.

**Incorrect:** iPhone Duo uses **Touch ID integrated into the side button** for authentication.

**Question 3:**

Which two new camera experiences are enabled specifically by the foldable form factor of iPhone Duo?  
(Select **TWO**)

- A) **Duo Preview (mirrors Live Preview on the outer display for better selfies)**
- B) **Kid Cue (displays fun animations on the outer display to help kids look at the camera)**
- C) Night Mode astro-tracking with mechanical panning
- D) Continuous manual aperture ring rotation

**Correct Answer:** A and B

**Learner Feedback:**

**Correct:** Spot on! The foldable form factor enables **Duo Preview** (previewing selfies on the outer screen) and **Kid Cue** (fun animations to capture kids' attention), alongside Smart Take and Duo FaceTime.

**Incorrect:** Form factor camera experiences include **Duo Preview** and **Kid Cue**.

**Question 4:**

Which statement accurately describes the cellular SIM architecture of iPhone Duo?

- A) Physical nano-SIM only worldwide
- B) Dual physical nano-SIM tray in all regions
- C) **eSIM only worldwide**
- D) Hybrid physical SIM and eSIM slot

**Correct Answer:** C

**Learner Feedback:**

**Correct:** Well done! iPhone Duo is **eSIM only worldwide**, a design choice that frees up interior space for greater battery capacity.

**Incorrect:** iPhone Duo uses an **eSIM-only design worldwide**.

**Question 5:**

Which multitasking feature is introduced to iPhone for the first time on iPhone Duo to take advantage of the large 7.6-inch inner display?

- A) Mission Control 3D grid
- B) Slide Over floating calculator
- C) **Split View multitasking**
- D) Spaces multi-desktop switcher

**Correct Answer:** C

**Learner Feedback:**

**Correct:** Exactly! **Split View multitasking** comes to iPhone for the first time on iPhone Duo, letting users split the screen between two apps with familiar swipe gestures.

**Incorrect:** iPhone Duo introduces **Split View multitasking** to iPhone for the first time.
