iPad Pro with M5

iPad Pro delivers the ultimate iPad experience. Featuring the M5 chip, the combination of Neural Accelerators in the GPU and CPU, plus Neural Engine makes iPad Pro an absolute powerhouse to accelerate AI workloads and other demanding workflows. iPad Pro also features the world's most advanced display: the Ultra Retina XDR. Faster memory bandwidth, 2x faster read/write storage speeds, and support for Thunderbolt wired connections are perfect for pro users. And with the Apple-designed N1 wireless chip and C1X cellular modem, users can extend their work to new places. Apple Pencil Pro and the Magic Keyboard for iPad Pro further expand the versatility of iPad Pro. With an advanced camera system, LiDAR Scanner, studio-quality mics, pro app support, iPadOS 26, and more, iPad Pro pushes the limits of what's possible on iPad.

Capacity¹

256GB, 512GB, 1TB, 2TB

Finish

Silver, Space Black

¹ Available space is less and varies due to many factors. Actual formatted capacity less.

M5 chip

- Built on third 3-nanometer technology
- New 10-core GPU architecture with a Neural Accelerator in each core delivers up to 4x faster AI image generation than M1
- With third-generation hardware-accelerated ray tracing, 3D pro rendering is up to 6.7x faster than iPad Pro with M1²
- Features a 16-core Neural Engine for power-efficient AI tasks
- The 9- and 10-core CPUs also feature Neural Accelerators for low-latency AI tasks like speech recognition
- Memory bandwidth is 153 GB/s—a nearly 30% improvement over M4 in previous iPad Pro
- The combination of GPU, CPU, and Neural Engine in M5 makes iPad Pro an absolute powerhouse to accelerate AI workloads
- Power-efficient design delivers all-day battery life³

Ultra Retina XDR display

- Both models have an Ultra Retina XDR display⁴ that delivers Extreme Dynamic Range with 1000 nits of full-screen brightness for SDR and HDR, 1600 nits peak HDR brightness, and 2,000,000:1 contrast ratio
- Enjoy even more true-to-life details, true blacks, and stunning colour accuracy when viewing or editing HDR photos and videos
- ProMotion automatically adjusts the display refresh rate for ultrasmooth scrolling and incredible responsiveness
- Nano-texture display glass option further minimises the impact of ambient light in colour grading workflows, and is available on 1TB and 2TB models

⁴ When measured as a standard rectangular shape, the 13-inch iPad Pro is 13 inches, and the 11-inch iPad Pro is 11.1 inches. Actual viewable area is less.

The new iPad Pro with M5 unlocks the most advanced iPad experience ever, packing an incredible amount of power and AI performance into the ultraportable design.

Pro cameras

- 12MP Wide camera with adaptive True Tone flash scans documents, captures beautiful photos, and shoots 4K video and ProRes video
- LiDAR Scanner enables depth-sensing for instant AR and pro workflows like room scanning
- The 12MP Center Stage front camera located on the landscape edge is perfect for video calls
- Use Face ID to securely unlock, log in to apps, and pay with a glance

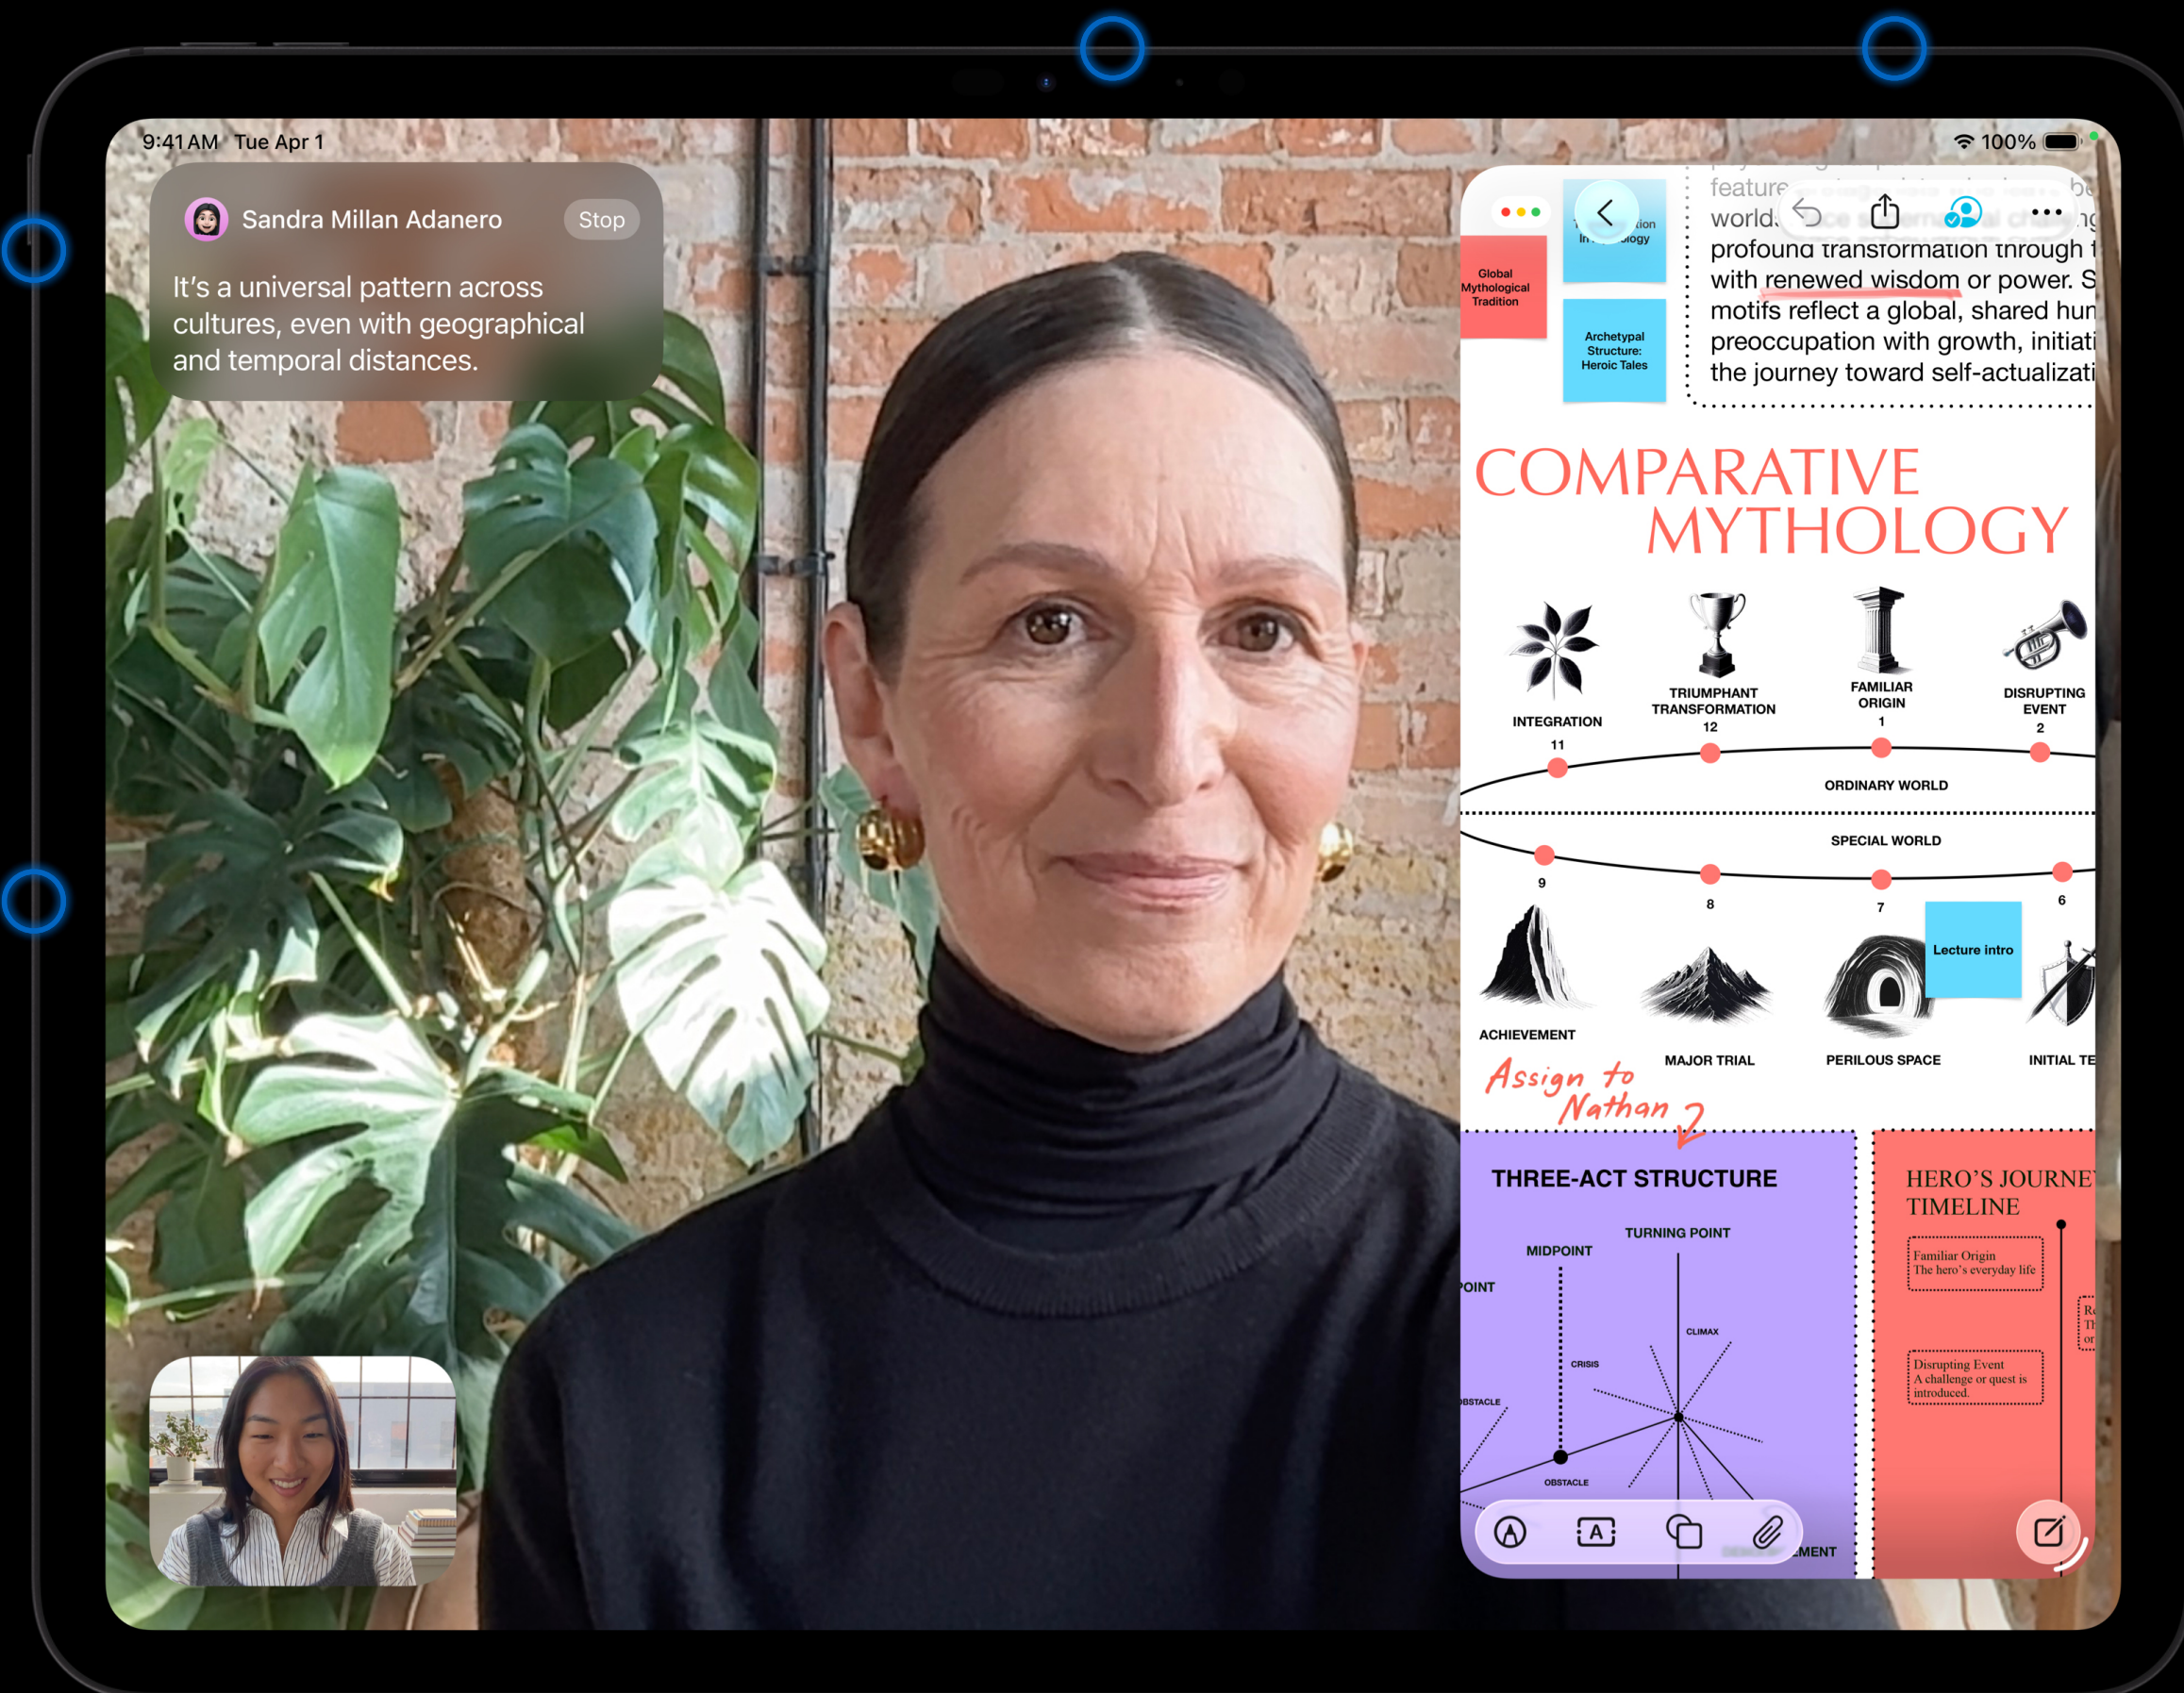

Wireless and connectivity

- N1 chip enables Wi-Fi 7,⁵ Bluetooth 6, and support for Thread
- Cellular models of iPad Pro feature C1X, a cellular modem designed by Apple that brings users up to 50 percent faster cellular data performance—and for active cellular users, up to 30 percent less power usage than iPad Pro with M4
- Purchase cellular data plans right on your iPad with eSIM⁶

⁵ Wi-Fi 7 available in countries and regions where supported. ⁶ Not all carriers support eSIM. See your carrier for more details. For Model A3007 and A3006, contact China Unicom for more details. For more information on eSIM on iPad, see <https://support.apple.com/en-us/119592>.

Quick Demos

iPad Pro. Experience the lightweight design

- Hand iPad Pro to your customer. Say that the thin and light design makes it extremely versatile and portable.
- Let them know that they can choose an 11-inch or new 13-inch model.

Enjoy stunning photos and videos

- Tap Photos, scroll to My Albums in the sidebar, and select the Great Shots album.
- Open the photos and swipe through a few.
- Highlight that the Ultra Retina XDR display delivers extreme brightness, precise contrast, and stunning colour accuracy.
- Open the HDR Video album. Swipe through HDR videos.
- Mention that many of your customers' favorite movies and shows also come in HDR, and they look fantastic on the Ultra Retina XDR display.
- Point out that four-speaker audio makes content feel immersive.
- Open Safari and scroll. Mention that scrolling feels smooth and responsive with ProMotion.

Quick Demos

Highlight the Apple M5 chip

- From the Home Screen, tap Final Cut Pro, then tap on a project.
- Tap Edit, then Play. While the video plays, go to timeline bar and scrub forward.
- Mention how responsive iPad Pro is, and that customers can play back and edit up to five streams of 4K ProRes footage on the go. And M5 powers machine learning, so customer can isolate a subject from its background in 4K video with just a tap.
- Open Shortcuts and point out that customers can create AI assistants to automate everyday tasks. Mention that M5 powers AI features like summarising pages of lecture notes in Notes or Pages.
- Open Alto's Odyssey. Highlight the performance and the smooth graphics.
- Mention that customers can now experience more immersive and realistic gaming with the faster GPU performance of M5.
- Point out that light, shadows, and reflections look incredibly vibrant and realistic. Highlight the hardware-accelerated ray tracing in apps that support it for even more realistic and immersive experiences.

Show the pro cameras

- Highlight the 12MP Wide camera and LiDAR Scanner on the back.
- Mention that iPad Pro features adaptive True Tone flash to enhance image capture and document scanning.
- Point out that the 12MP Center Stage front camera is on the landscape edge. So it's perfect for FaceTime and video conference calls in apps like Zoom, or taking selfies or for recording a podcast.
- Note that customers will access Face ID from the landscape edge.
